

NEXUS ERP

Franchise Solution Toolset

- An essential toolset to effectively manage supplying to a Franchise group or selling via a buying group such as the CWA Subway or Spotless contract
- Made up of four key components
- Contract Management - allows contract pricing to be setup and monitored with mapping of Franchise Contract stock to Nexus stock
- EDI Module – automatically imports orders and exports invoices and credit notes
- Franchise Account Reconciliation and management – loads remittance file to facilitate account reconciliation by identifying reconciled, incorrect, missing or extra payments
- Delivery Performance Reporting – reports on estimated and actual delivery times and chiller/freezer temperatures, reports on daily stock holding of contracted items
